

About VSE Corporation

VSE is a leading provider of distribution and repair services for land, sea and air transportation assets in the public and private sectors. VSE is dedicated to making our federal and commercial clients successful by delivering innovative solutions for vehicle, ship and aircraft sustainment, supply chain management, platform modernization, mission enhancement and program management, and providing clean energy, IT and data management services.

For additional information regarding VSE's services and products, visit us at www.vsecorp.com.

The image shows a large, modern industrial building with a complex steel frame and glass walls. In the foreground, there's a large white graphic element. On the left, the word "CONTACT" is written in a large, bold, sans-serif font. On the right, there's a solid white triangle pointing towards the center. The overall composition suggests a professional or corporate setting.

VSE Family of Companies

Federal & Defense Services core service is to maintain and extend the lifecycle of land sea & air assets for federal and defense clients. We advise our customers on the best choices for readiness investments in fielded systems by delivering reliable supply chain and logistics management services, technical support, modernizations, maintenance, repair and overhaul. Our divisions include land services, maritime services, aircraft maintenance and modernization, data management solutions and logistics services.

Wheeler Fleet Solutions a fleet-focused parts distribution and services company with over 300 employees. Wheeler Fleet Solutions ships over 3 million line items yearly to 700 managed inventory stock rooms and thousands of B2B customers across the United States. In addition to our huge selection of parts, we also offer stockroom and inventory management services, fleet management software and custom engineered services.

VSE Aviation is uniquely positioned in the aerospace industry to support our customers with both maintenance, repair and overhaul (MRO) services for components and engine accessories, as well as distribution and supply chain management for aftermarket parts. Headquartered in South Florida, VSE Aviation provides services and parts for Commercial, Cargo, Business / General Aviation, Military / Defense, and Rotorcraft customers globally.

Energetics helps public and private companies integrate clean energy technologies and strategies into real-world applications. We work with lead investors, innovators, and stakeholders to inform and expedite the development and market success of novel energy technologies, strategies, and practices that deliver a sustainable future.
